SUMMARY

A Bachelor of Informatics Engineering student at Tarumanagara University. Experienced in web design and web development, with strong skills in creativity, problem-solving, critical thinking. Able to work effectively both independently and in a team. Passionate about design and highly motivated to learn new things

EDUCATION

2023 - Present

Bachelor of Informatics Engineering
Tarumanagara University
GPA 4.00 of 4.00

EXPERIENCE

May 2025 - May 2025
BEM UNTAR

Committee Member of Visual Design Creator Division
Tarumanagara Job Fair 2025

- Designed digital materials such as wayfinding signs, cue cards, and e-certificates in accordance with the main event concept set by the core committee.
- Completed design tasks within the deadlines assigned by the division leader or main committee.
- Revised and refined designs based on feedback until final approval was achieved.
- Captured event documentation through photos and videos during the event.
- Attended committee meetings to discuss progress and receive feedback from the core team.

Aug 2024 - Dec 2024
Tarumanagara University

Assistant Lecturer

- Taught three classes for Database System course, ensuring students understood how to create and manage databases using Oracle SQL Developer and Oracle APEX.
- Created simple quizzes every three meets as additional point grading points to ensure they understand the lesson that has been taught
- Made rules to maintain discipline, like implementing point deductions for late attendance.
- Graded students' assignments and provided constructive feedback to support their learning progress.

SKILLS

- HTML | CSS | EJS | Bootstrap | Tailwind CSS | React.js | Next.js | AngularJS
- JavaScript | Node.js | Express.js
- C++ | Java | Python | Matlab
- Oracle (SQL Developer, APEX) | PostgreSQL | MongoDB
- Microsoft Word | Microsoft Excel | Microsoft PowerPoint | Canva | Figma
- Creativity | Time Management | Team Work | Problem Solving | Critical Thinking | Teaching | Adaptibility
- Bahasa Indonesia | English

PROJECTS

Portfolio Website - Next.Js | Tailwind CSS

October 2025 - October 2025

Developed a personal portfolio website using Tailwind CSS and Next.js, deployed via Vercel. Strengthened front-end development and design skills.

DigiSteels Website - Next.Js | Express.Js | Tailwind CSS | MongoDB

March 2025 - June 2025

Developed a full-stack web application, DigiSteels, offering online stainless steel material ordering integrated with MongoDB. Built collaboratively using Node.js, Express.js, and Next.js as part of a Software Development course project.
Link Github   : https://github.com/wei5002/UAS_SoftwareDevelopment_Kelompok7

FitSteps Website - EJS | CSS | JavaScript | Postgre SQL

November 2024 - December 2024

Developed FitSteps, a healthy-living themed web app using EJS, CSS, JavaScript, and PostgreSQL. Improved teamwork skills and gained experience in building database-integrated web applications.
Link Github   : https://github.com/MrJov100/UAS_Front-End-Programming_Kelompok-6

BlankSpace Website - HTML | CSS

October 2025 - October 2025

Designed Blankspace, a lifestyle-themed responsive website using Bootstrap 5 for a Front-End Programming course. Strengthened skills in various Bootstrap components and improved creative web design skills.
